

# REACHING *higher*

## SPONSOR A STUDENT PROGRAM

At Liguori Academy, we believe that every student deserves an educational program that meets their needs and sets them up for success. By alleviating the financial burden from the family, we enable them to focus more clearly on their child's education. We do this with the support of individuals, groups, and companies that are gracious enough to support a student during their four years at Liguori Academy.

As a donor you directly impact a student's future and are investing in the next generation of contributors to our region's economy and beyond. We've created an environment where our students know that they are supported, and we motivate them to continue reaching higher.
